

Your Business is their Future

Date: Wednesday November 22, 2017

Time: 11.45am - 2pm

Venue: Fife Lodge Hotel, Banff

Are you ready to make the future of young people your business?

Developing the Young Workforce, Banff Academy and Turriff Academy are hosting a unique and free workshop aimed at identifying how supporting young people at your local schools can align with your organisation's specific goals.

At DYW our mission is to be the vital link for businesses and schools to engage, inspire and develop the young workforce of the North East. DYW can support you in making a difference.

The workshop will provide you with a better understanding of key tasks which you can support the two schools with.

After the workshop, we will summarise the outcomes and support your relationship with the Academies moving forward.

Why get involved?

- Gain access to a pipeline of future candidates and lower your recruitment costs
- Raise the profile of your business
- Continuous professional development for your staff
- Educate young people and teachers regarding current career opportunities
- Positive contribution to the community

The workshop is for organisations of any size and sector that are ready to make the future of young people their business.
