COURSE INFORMATION

Why Accounting?

Accounting is a key function in all organisations. Without effective accounting procedures and accountants to provide timely and relevant information to management, organisations may perform less successfully than they otherwise might.

Studying Accounting will enable you to acquire the skills and knowledge necessary for understanding and taking part in the world of business. Even if you are not planning a career in business, this subject helps to improve your personal effectiveness by developing your ability to think logically, work accurately, make decisions and solve problems.

The skills that you develop in Accounting are useful in many careers such as finance, IT consulting, tax planning and management consulting.

The course has two compulsory units, plus an added value unit .

- Preparing Financial Accounting Information
- Preparing Management Accounting Information
- Added Value Unit: Accounting Practical

ASSESSMENT

Assessment is by continuous assessment throughout the course and also by completion of an exam and an assignment both are externally marked by the SQA..

The course assessment has two components with a total of 200 marks:

- Component 1 - Question paper (140 marks)
- Component 2 - Project (60 marks).
