

Why Geography?

Geography is the study of our changing physical world and how people live in it. You will learn about different countries and cultures. You will develop important skills such as investigation, teamwork and critical thinking.

Course Outline

You will study the features of the earth such as mountains, rivers and seas and how they were formed. You will learn how to use a range of equipment and techniques such as map reading, data collection, ICT and problem-solving. You will find out about cultures and backgrounds of people from all over the world. There will be opportunities for practical activities, including fieldwork.

GEOGRAPHY NATIONAL 4

Details of Course Components

The course has **three** compulsory units assesses your practical skills. The units are the same as those for **National 4**, but you will have to produce a higher standard of work.

Geography: Physical Environments

In this unit you will:

- develop your geographical skills relating to physical environments
- develop a more detailed knowledge and understanding of the processes and interactions at work within physical environments, including: the location of different types of landscape; how landscape features are formed,; land use management and sustainability; and weather
- study some different types of landscape found in Scotland and/or the UK, such as glaciated upland; upland limestone; and rivers and their valleys.

Geography: Human Environments

In this unit you will:

- develop your geographical skills in the context of human environments
- develop a more detailed knowledge and understanding of the processes and interactions at work within human environments
- study and compare developed and developing countries, including topics such as: contrasts in development; world population distribution and change; and issues in changing urban and rural landscapes.

Geography: Global Issues

In this unit you will:

- develop your skills in using sources of numerical and graphical information in the context of global issues
- develop a more detailed knowledge and understanding of major global geographical issues such as: climate change and sustainability; the impact of world climates; environmental hazards, Volcanoes, Earthquakes and hurricanes ; trade and globalisation; and development and health
- learn more about the strategies adopted to manage these issues.

ASSESSMENT

Your work will be assessed by your teacher on an ongoing basis throughout the course. Items of work might include:

Written work - research assignments, reports and case studies, projects , class - based exams.

You must pass all the units including the practical unit to gain the course qualification.

FACULTY OF HUMANITIES

Geography Staff :

Mr Michael Forsyth
Miss Shakira Alecio
Miss Laura Smith

History Staff:

Mr George Baird PT
Mrs Fran Mottashaw

Modern Studies Staff:

Mrs Alison Gray

RMPS Staff:

Mrs Stephanie Chalmers
