

TURRIFF ACADEMY

MUSIC PERFORMING N5

WHY?

This course gives you the opportunity to use your imagination and express yourself in creative and practical ways.

This course allows you to develop and consolidate your skills in performing and creating music, as well as studying a variety of styles, genres and musical concepts in our listening course.

SKILLS

It helps you to develop a variety of important skills such as: resilience and perseverance, communication, creative thinking, self discipline, time management, organisation skills and problem solving.

CREATIVITY

Music performing will help you to develop your creativity and confidence as you explore the different elements of our course.

CONFIDENCE

The music performing course consists of three units of work; performing, composing and listening. These are taught over 5 periods each week.

COURSE COMPONENTS

MUSIC PERFORMING N5

PERFORMING

Pupils develop skills on 2 instruments or 1 instrument and voice. They focus on learning a variety of pieces ready for a final performance to an external examiner in term 3. This element makes up 50% of the final grade.

Pupils learn different methods of composition and work towards creating their own piece which is sent to the SQA for marking. This element is worth 15% of the final grade.

COMPOSITION

In the understanding music units pupils learn to identify musical concepts through listening and studying music from a variety of genres and styles. There is a listening exam in May which is worth 35% of the final grade.

UNDERSTANDING MUSIC

In order for pupils to achieve their full potential much of the course is personalised for pupils based on their individual talents and skills. Throughout the year pupils set their own targets for learning and are responsible for driving their own success.

MENTAL HEALTH

Music has been proven to reduce stress, anxiety and improve mood. Many pupils continue to play instruments, create music and listen to it for many years after leaving school.
