Active Schools supporting Schools to keep children and adults active during lockdown

With all sport and physical activity sessions run through Active Schools being suspended currently, we wanted to provide you with information on some of the fantastic resources and online content we have created that you could use to support your school's pupils with keeping physically active during their home schooling period.

You may remember during the summer we set a variety of challenges each week for pupils to participate in and send us their best efforts and our series of Mindfulness Videos thanks to one of our partner organisations allowing people the opportunity to take a few minutes out of their day to relax and unwind. There are approximately 20 videos that have now been added to a YouTube playlist on the Live Life Aberdeenshire YouTube channel and can be viewed and tried at any point.

Active Schools Join in Playlist - <https://www.youtube.com/playlist?list=PLf9SJJ0IgiNL5zD4xvzj9nYXJkTvqOuE6>

Outwith the video content, the team have designed a fantastic Stay Active at Home set of online resource cards that can be downloaded from the Live Life at Home page of the LLA website with some simple games and ideas to help keep children active at home.

Active Schools Resource Cards - <http://bit.ly/ASAResourceCards> or <http://bit.ly/ASACreativeCards>

We also have a series of lesson plans for some of the sports and physical activities that we offer that could be used or adapted to carry out a physical activity in a suitable space. If you would like more information on these lesson plans then please contact your local Active Schools Coordinator who can help you.

Finally, we are also working on a plan to create some brand new online activity sessions that pupils can take part in from the comfort of their own home.

The first of these takes the form a dance session lead by our Alford Coordinator Fiona Preston. The video will be released live on YouTube on Wednesday 13th January at 10am

Lets Dance with Fiona – Video 1 Move Your Body - <https://youtu.be/AkJAXLR6GI4>

We will provide more details of further sessions created in due course however in the meantime why not like, follow or subscribe to our various social media feeds
